Dear Mr. Nickel,

Clearwater Paper Corporation (Clearwater) appreciates the effort EPA put into the draft Permit, Fact Sheet and supporting analysis and the opportunity to provide comments to the draft Permit. As outlined in the attached letter, Clearwater has concerns about various monitoring requirements and the effluent limits for pentachlorophenol and 2,3,7,8 TCDD in the draft Permit. Clearwater requests that EPA delay finalizing the Permit considering key regulatory developments, as detailed in the attached letter, that may impact the significant provisions in the Permit.

On behalf of Clearwater Paper, we appreciate the opportunity to provide comments and thank you for your consideration. Please contact me at 509-344-6419 or malisa.maynard@clearwaterpaper.com with questions.

Sincerely,  
Malisa Maynard
